

NUT FLAVORS

# WE CRACK EVEN THE HARDEST NUT.

And offer nut flavors  
for everyone.

# The world of nuts.

## with flavors from Silesia.

### The diversity of the nut.

Nuts have played a significant role in our diet since the Ice Age and this has been the case since then. Today not only the „real nut fruits“, the classics walnut and hazelnut but a variety of nuts from all over the world enriches our bill of fare.

From the Mediterranean almond, pistachio or pine nut add a touch of warmth and southern flair. Pesto or almond liqueur put us in the holiday mood. The holiday continues with exotic varieties such as coconuts from Asia, macadamia from Australia, cashew, Brazil- and peanuts from America.

### From sweet to savory.

With their nutty, roasted and yet always very individual flavors, nuts can be found in a variety of foods. Starting with granola bars, baked goods, nougat and/or praline, as well as in ice cream, as crunchy toppings for salads or even as a stuffing for roasted noodles nuts, pistachios, pine nuts etc. are becoming increasingly popular.
